Dear Peter:

I wanted to express my thanks for the shipment of Whole Earth Magazines you sent to our offices. We have been able to use them by distributing them to various congregations, religious institutional staff and funders. They have been most useful in affirming their hard work and with helping to promote our efforts.

Also you should know that as a result of the Magazine being on the news stands we have seen an increase in general inquiry phone calls - not just in our secretariat office, but among our member groups and congregations featured in the issue. The issue was quite effective in reaching out to people who had interest in spiritual and environmental issues but had not known about our work.

Sincerely,

Paul Gorman
Executive Director
